## Slinger

### Course Summary:

Slinger is the introductory course before candidates take the three-part series Rigger training following the Saudi Aramco GI's standard. This course provides the participants with knowledge of the basic slinging principles, general hazards and risks of rigging and lifting and practice basic rigging operations following a lifting plan.

### Target Participants:

Personnel who have had little or no training or experience in rigging and lifting operations.

Course Duration: 2 Days

Accreditation: Lifting Equipment Engineers Association (LEEA-UK)

Training Dates: Weekdays & Weekend Session Available

Training Venue: Tamkene Saudi Training Center, Dammam
